Sections and lectures:
Lectures will be conducted in the room MSCS 108, in Stillwater as follows:
  CRNs 63802 & 65854 - MSCS 108, at 3:00-4:15 p.m., on Tuesday & Thursday

Instructor:
Dr. Moawia Eldow
Stillwater Office: MSCS 224
Tel - 405.744.2607
meldow@okstate.edu

Office Hours:
Monday & Wednesday 3:00-5:00 p.m., in Stillwater.
Other times available by appointment.

Course description
C++ programming language types, operators, expressions, control flow, functions, structures, pointers, arrays, UNIX interface. Basic object-oriented programing using C++ and the related language syntax and functionality.

Course objectives
By the end of the course, all students should be able to
  • write good C and C++ code,
  • use good programming style when writing code,
  • design programming solutions to problems.
  • acquire a basic understanding of algorithm performance issues.

Course Prerequisites
CS 1113: Computer Programming I or equivalent.

Course Website
You can access the Canvas site for this course directly via the link https://canvas.okstate.edu or at my.okstate.edu then use the link to Canvas on that page. You will need to log in using your OSU email address and password.

Textbook:
In this class, an online textbook and assignment system, called ZyBooks will be used. Most of the home assignments and program assignments will be covered through ZyBooks and ZyLabs, so it is must to subscribe on ZyBooks. You need to use your first & last names as appeared in OSU records, your OSU email (not the personal one) and your OSU ID.

Following steps is to be followed for completing the registration:

1. Sign in or create an account at learn.zybooks.com
2. Enter zyBook code: OKSTATECS2433EldowFall2021
3. Select your section (Section 1-CRN 63802 or Section2-CRN 65854)
4. Subscribe

A subscription is $77. Students may begin subscribing on Aug 09, 2021 and the cutoff to subscribe is Nov 19, 2021. Subscriptions will last until Dec 17, 2021.
Additional Reading (Optional):

Additional Online Resources:
- Video tutorials: https://www.youtube.com/playlist?list=PLAE85DE8440AA6B83.

Useful Software:
- Bloodshed Dev-C++ IDE (http://www.bloodshed.net/devcpp.html).
- Code Blocks (http://www.codeblocks.org/) - a lightweight IDE.
- The atom editor (https://atom.io) - a good free code editor.
- Notepad++ (http://notepad-plus-plus.org) - a lightweight text editor for Windows.

Grading:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework Assignments</td>
<td>30%</td>
</tr>
<tr>
<td>Programming Assignments</td>
<td>30%</td>
</tr>
<tr>
<td>Quizzes &amp; In-Class Activities</td>
<td>10%</td>
</tr>
<tr>
<td>Midterm Exam</td>
<td>15%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>15%</td>
</tr>
</tbody>
</table>

Grading Scale:

<table>
<thead>
<tr>
<th>Score Condition</th>

</tr>
<tr>
<td>70 ≤ x &lt; 80</td>
<td>C</td>
</tr>
<tr>
<td>60 ≤ x &lt; 70</td>
<td>D</td>
</tr>
<tr>
<td>x ≤ 60</td>
<td>F</td>
</tr>
</tbody>
</table>

Homework Assignments:
There will be homework on each chapter that might be completed using various participation and reading activities (PA) and challenging activities (CA) available in ZyBooks. **Homework assignments will be due at 11.59 p.m. on next Thursdays.**

Programming Assignments:
Programming assignments are one of the important components of this course. The reason is simple: you learn a programming language best by using them. These assignments should be accomplished using the Zylabs, the departmental csx server or any other IDEs for C++. **Programming assignments will be due at 11:59 p.m. on next Fridays.**

Quizzes and in-class activities:
In some classes, **there will be quizzes (through Canvas) or in-class activities.** Attendance is also important for this class; you will get some points after attending each class.
Exams:
There will be one midterm exam during the semester at the normal lecture time, which will cover the first half of the class topics. There will also be a final exam during finals week, which will cover the second half of the class topics. The midterm and final exam will be online exams Via Canvas.

Student Expectations:
To do well in the class, students are expected to
- Keep up with the ZyBooks material, including the participation activity (PA) and challenging activity (CA) as well as ZyLabs.
- Read or view the instructional material posted to Canvas frequently.
- Ask for help if any of the material covered in class is not clear.
- Complete the programming assignments and submit them before their deadlines.
- Regularly check e-mails and course website for announcements.

E-mail Policy:
E-mail is the preferred communication medium. Use “CS 2433” as the start of the subject/title for all e-mail communications.

Late Submission & Make-up Policy:
No make-up exams will be scheduled except in extreme cases. If you are going to miss an exam or quiz, contact the instructor in advance. Exceptions can be made if a serious family or personal emergency arises.
Assignments may be turned in late, but not more than one week. The late submissions may lose a percentage of their graded point values according to the following schedule:

- On time: 0%
- 1-2 days: 10%
- 3-4 days: 20%
- 5-6 days: 40%
- 7 days: 60%
- > 7 days: 100%

Academic Dishonesty:
Scholastic conduct must be acceptable, that is, students are expected to do their own work. Discussion of homework assignments is encouraged, but students must work independently on their program submissions. Sharing of code is strictly forbidden. Violations of academic integrity rules will result in significant punishments, up to and including a final course grade of an F! (F-shriek, indicating an academic integrity violation on your permanent transcript).

Disabilities act:
If any student feels that he/she has a disability and needs special accommodations of any nature whatsoever, the instructor will work with you and the Office of Disabled Student Services, 326 Student Union, to provide reasonable accommodations to ensure that you have a fair opportunity to perform in this class. Please advise the instructor of such disability and the desired accommodations at some point before, during, or immediately after the first scheduled class period.

Other Policies:
Students should refer to any new polices from university, college and department.
## Course Outline (Tentative Schedule):

<table>
<thead>
<tr>
<th>Week</th>
<th>Reading chapters and Topics</th>
